

The Boerum Hill School for International Studies
An IB World School

Dear Families,

The **flu vaccine** is available **free of charge** in our School Based Health Center. The American Academy of Pediatrics recommends that *all* children over the age of 6 months receive the flu vaccine annually. (It is especially important for children with health problems such as asthma.)

Please review the Flu Vaccine Information Statement
<https://www.cdc.gov/vaccines/hcp/vis/vis-statements/flu-largetype.pdf>

Please complete and return this page if you want your child to receive the flu vaccine at our health center. You may return a hard copy or scan to the email address below. To make an appointment please email us, or your child can walk in. You are also welcome to accompany them if preferred.

Like all services at our health center, this is **FREE** of any charge to families. However billing your insurance companies whenever possible, allows us to continue providing care and services like these to all. You will never be asked to pay medical bills for any care received in the School Health Center.

Student's full name: _____ Student's date of birth: _____

Allergies: _____ Medical Problems (including asthma): _____
